about me

I'm an ICF certified ACC Coach with 25+ years of experience of social entrepreneurship in the US, UK, Europe and India. I solve most pressing problems in sales, leadership or scale.

I believe 10x growth happens with reinvention of self which requires clarity of direction, focus in energy and systems to expand existing capacities. The belief comes from my own pivots in life - not once but at least three times.

testimonials

Bikashita Bhattacharya,
Manager, New Delhi

I had a call with Deepti around a month ago, when I wanted to figure out my career transition and trajectory into Gender in the future, and the clear articulation and meticulous understanding that she had while guiding me was outstanding, something every woman who wants lead in their communities should definitely learn. I have always admired Deepti's leadership and the values she holds ever since I met her back in 2022. Its been 4 years and the admiration has only grown with time. For the first time someone enabled me to deep dive into reflecting what I really wish to do career-wise. Very helpful!

testimonials

Sanjukta Gosh

Manager, Mumbai

I had the opportunity to attend a career counseling session with Deepti, and it was extremely insightful. She helped me work through self-doubt and hot to perform better in my career confidently while also maintaining a healthy work–life balance. Her approach is thoughtful, empathetic, and empowering, creating a safe space to reflect and gain clarity. I would highly recommend her sessions to anyone looking to build confidence, grow professionally, and manage their personal and professional lives more effectively and with confidence.

Deepjyoti Nath,

Manager, Assam

Deepti Mam's mentoring session gave me a clear perspective on my professional priorities and the growth mindset I need to thrive in my organisation. Her insights were actionable and encouraging. I'd strongly recommend her to anyone seeking meaningful career guidance.

Rubin,

Agri-Entrepreneur, Pune

Hello, my network 🌏 three months ago, my friend and I hired Sateek. We are fast paced start up 🈺 with lots of ambiguity. We give plenty autonomy who want to grow - means join me please. 🙃

The business takes all energy to aligning my teams. How I build a culture of fast turn around, keeping with GenZs, flat hierarchy but a fun work place. I thought some standard process and quality work, normally coaches and trainers do that. But Sateek met more than my expectations 😇 - their human-focus is refreshing. 3 of my junior managers are now motivated. I asked them, bhai, what changed. They say - Rubin bhaiya, humko samajha ki company apka hai par career humara hai. 🔆

Mera CPO bola - maine last week tak soch raha tha ki - koi aur company join karta but the team suddenly started taking responsibilities. 🕺

This not an endorsement 🙌 but for my friends reading my post - career growth and transformation for teams or yourself, I can connect you to 😊 Sateek

Thanks mam Deepti Ameta
